Please note: Failure to comply with the court=s case management rules and policies will result in the issuance of an OSC and the imposition of monetary and other sanctions.

Alternative Dispute Resolution Policy

The San Luis Obispo Superior Court recognizes that civil litigation can be time consuming and expensive. Delay rarely serves anyone=s interests. It often imposes intolerable social and economic burdens on the parties and the court. It is the policy of the court to achieve a disposition of all litigation at the earliest date consistent with a fair and just resolution of the dispute.

Nearly all cases are resolved without trial. Many settlements are achieved only after significant amounts of time and money have been spent on pre-trial procedures and investigation. It is the goal of the San Luis Obispo County Superior Court to produce a fair and just settlement of the dispute early in the process. To achieve this goal, it is the policy of the San Luis Obispo Superior Court to encourage the parties to pursue alternative methods of dispute resolution as early in the process as possible. All cases will be assessed at the first Case Management Conference to determine which method of ADR is most likely to achieve an early resolution.

Alternative Dispute Resolution is more thoroughly explained in the form AAlternative Dispute Resolution Policy Statement.@ It is the obligation of counsel to review the alternatives to trial with their clients and to provide them with a copy of the form.
